This can be proved by changing to Grape-Nuts food for a few days for this scientific food will digest in the weakest stomach and will give the proper nourishment for baby building. "When our girl was a tiny baby she had indigestion and although we did our best nothing seemed to help her. She was peevish and would not even try to walk and many times would cry aloud and seemed to

"As we had buried three children before you can imagine how we felt to see this little girl wasting away. When she was two years old she had a terrible sick spell and we were very much alarmed. The doctor said she had summer complaint and indigestion and told us to use Grape-Nuts. After we had given her two meals of this food her bowels were checked and in a short time she was completely well and

strong again. "Then we noticed how her mind, too, been to improve. She had never talked before but now she brightened up and understood things that were said to her. She s all the time instead of crying and now, after two years living on Grape-Nuts she talks well, has a splendid memory, and is as bright and healthy and happy a baby as any one would ever care to see. I hope some other discouraged mother will read lines and profit by them." Name given by Postum Co., Battle Creek, Mich.
